

# WeirFoulds partners recognized as leading lawyers in 2017 Lexpert® Special Edition – Energy

October 30, 2017

WeirFoulds is pleased to announce that Wayne Egan and Robert Warren are listed in the 2017 *Lexpert® Special Edition – Energy*.

Wayne is a well-regarded securities and corporate lawyer who regularly advises clients in the resource industry. He has years of experience serving on boards for public companies and is currently on the board of directors of Canadian junior oil company James Bay Resources Limited. This gives him unique insight into the challenges faced by the energy and resource industry as a whole.

Robert is one of the province's most experienced energy regulation lawyers. Over the course of the past year he has advised clients in both the public and private sectors on a wide array of energy issues, including the governance of municipally-owned distribution utilities, the impact of distributed energy resources on the operation of distribution utilities, and the response to provincial climate change initiatives.

The Lexpert® Special Edition – Energy is the product of an extensive peer survey process and profiles Lexpert-ranked lawyers who provide services to the Energy sector, including Oil and Gas, Electricity, Alternative and Nuclear Energy. The Special Edition has been published in the November edition of the Report on Business magazine in The Globe & Mail and can be viewed online [here](#).

We congratulate Robert and Wayne on this distinction.
